

TROPICAL CYCLONE BULLETIN NO. 17
Typhoon CHEDENG (GUCHOL)

Issued at 11:00 AM, 10 June 2023
 Valid for broadcast until the next bulletin at 5:00 PM today.

TYPHOON "CHEDENG" MAINTAINS ITS STRENGTH WHILE MOVING NORTHWARD SLOWLY OVER THE PHILIPPINE SEA.

Location of Center (10:00 AM)	
The center of the eye of Typhoon CHEDENG was estimated based on all available data at 880 km East of Northern Luzon or 840 km East of Extreme Northern Luzon (19.3°N, 129.9°E)	
Intensity	
Maximum sustained winds of 150 km/h near the center, gustiness of up to 185 km/h , and central pressure of 955 hPa	
Present Movement	
Northward slowly	
Extent of Tropical Cyclone Winds	
Strong to typhoon-force winds extend outwards up to 520 km from the center

Checked by: **SFD**

TROPICAL CYCLONE BULLETIN NO. 17

Typhoon CHEDENG (GUCHOL)

Issued at 11:00 AM, 10 June 2023

Valid for broadcast until the next bulletin at 5:00 PM today.

HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

CHEDENG is unlikely to directly bring heavy rainfall over the country in the next 3 days. However, the Southwest Monsoon may be enhanced by CHEDENG and **bring occasional rains over the western portions of Luzon and Visayas in the next 3 days**. For more information, refer to **Weather Advisory No. 4 for Southwest Monsoon** issued at 11:00 AM today and the **24-Hour Public Weather Forecast and Extended Outlook** issued at 4:00 AM today.

Severe Winds

The hoisting of Wind Signals in anticipation of tropical cyclone severe winds is unlikely at this time. However, the enhancement of the Southwest Monsoon over the next 3 days may bring gusty conditions over the following areas (especially in coastal and upland/mountainous localities exposed to winds):

- **Today:** Metro Manila, CALABARZON, MIMAROPA, Bicol Region, Visayas, Zambales, Bataan, Camiguin, and Dinagat Islands.
- **Tomorrow:** Ilocos Region, Metro Manila, CALABARZON, MIMAROPA, Bicol Region, Western Visayas, Batanes, Babuyan Islands, Abra, Benguet, Nueva Vizcaya, Aurora, Zambales, Bataan, Bulacan, and Northern Samar.
- **Monday:** Ilocos Region, Cordillera Administrative Region, Metro Manila, CALABARZON, Bicol Region, Batanes, Babuyan Islands, Nueva Vizcaya, Aurora, Zambales, Bataan, Bulacan, Marinduque, Romblon, Occidental Mindoro, the northern portion of Palawan including Calamian, Cuyo, and Kalayaan Islands, Antique, and Aklan.

HAZARDS AFFECTING COASTAL WATERS

In the next 24 hours, CHEDENG may bring moderate to rough seas (2.0 to 3.5 m) over the seaboard of Extreme Northern Luzon and the eastern seaboard of mainland Northern Luzon. **Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea. If inexperienced or operating ill-equipped vessels, avoid navigating in these conditions.**

TRACK AND INTENSITY OUTLOOK

- On the forecast track, **CHEDENG will remain far from the Philippine landmass**. It is forecast to move northward or north northeastward today through tomorrow morning before turning generally northeastward for the rest of tomorrow. CHEDENG will then accelerate northeastward towards the sea southeast of Japan and east of the Ryukyu Islands and may exit the Philippine Area of Responsibility (PAR) between tomorrow late evening or on Monday early morning.
- CHEDENG is forecast to maintain its strength within the next 12 hours before entering a weakening trend tomorrow, although this tropical cyclone is forecast to remain as a typhoon within the forecast period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
